Module: Computer Safety

Topic: Making Friends Online and Summative Assessment

Year
6

Key Facts

- It is important to consider your online friendships and sources of information
- People sometimes behave differently online, including by pretending to be someone they are not
- Some social media sites, computer games and online games are age restricted
- It is important to know how to respond safely and appropriately to adults you may encounter (in all contexts, including online) whom you do not know

By the end of these topics, I should:

- list the key applications that we may use now and in the future
- know and understand why some applications have age restrictions
- identify ways to keep yourself and others safe in a range of situations online and offline
- recognise that people may not always be who they say they are online

I will learn the following new words/phrases:

Application	A program or piece of software, mostly found on smartphones and tablets.
Pretending	To behave as if something is true when you know that it is not.
Age restriction	An age under or over which something can or cannot be done.
Online activity	Activities performed on and data available on the Internet.
Social media sites	An online platform which people use to build social networks or social relationships with other people.
Password	A secret word or phrase that must be used to gain admission to a place.

Ask me a question!

- Why are there age restrictions on certain apps and games?
- How can we keep ourselves safe online?
- If you were worried about someone else's online activity, what could you do?
- If you wanted to meet an online friend in real life, how could you make sure you were safe?
