

Year 4 Home Learning Autumn 1

Please choose two challenges from the grid and be ready to share what you have done on **Thursday 16th October** in our year group assembly.

You should also be **reading** for at least 10 minutes every day and practising your weekly **spellings** (these will come home each week on a separate sheet).

In Maths, we will be mastering our times tables this year!  Log on to Times Tables Rockstars and play on GARAGE. See if you can start to turn some of your heatmap green!	In Science, we will be learning about living things and their life cycles.  Go on a nature hunt with your family and take photos/make a note of/draw the plants and animals you find. Can you identify them? Not sure what bug you've found? Try the questionnaire: https://www.buglife.org.uk/bugs/identify-a-bug/ Find out about identifying animals and try the Animal ID game: https://learningzone.oumnh.ox.ac.uk/animal-id	In Art, we will be learning how to draw animals.  Have a go at drawing an animal – maybe a pet, or using a photo. Can you use the sketching skills that you have learnt in school?
In English, we will be thinking about how we choose books to read.  Go and visit Farnborough Library (or another local library) and choose some books to borrow this term. You can borrow up to 20 at a time! Can you write a review of one of the books to share with your year group? If you are not yet a member of the library, visit in person or search for <i>Hampshire library join</i> to join for free.	In PSHE, we will be learning about water safety.  Can you create a poster or set of instructions to advise someone on how to stay safe near water?
