Thursday 5th March 2026

Y4 & Y5 PrimeVR Workshop

Dear Parents and Carers,

We have booked for a company called PrimeVR to come and deliver a virtual reality workshop day at our school on Tuesday 14th April 2026. We think this is a fantastic opportunity for our pupils and will help to bring their topic to life. Year 4 will be exploring the Romans and Year 5 will be exploring volcanoes through VR headsets.

You can find out more information about PrimeVR's workshops on the reverse of this letter or by visiting www.primevr.co.uk/faqs. If you have any other questions, please feel free to contact them at info@primevr.co.uk.

In order to cover the cost of this visit we will be seeking payments of **£5.60** per child. Please pay for this online via SCOPAY under the trips and events section. It is also very important that you tick the consent box too or your child will not be able to take part in the VR experience. The deadline for paying for this is **midday on Friday 20th March 2026**. If you are having financial difficulties, please contact the school office for advice.

(Please note, pupils with epilepsy or pupils who are prone to seizures should consult with their doctor before using a VR headset. If your child has epilepsy, is prone to seizures or may not be able to use a VR headset, please consult with a doctor and inform the school reception before signing up on SCOPAY as an alternative device can be provided for accessing the workshop).

Yours sincerely,

The Year 4 and Year 5 Teams

PrimeVR has been delivering workshops using virtual reality since 2017. You can see what schools, teachers and parents think of our workshops by checking out our reviews on Google and Trustpilot. Our workshops have been specifically designed for schools to help bring learning to life and they are delivered by an experienced member of the PrimeVR team in a controlled and supervised environment.

During our workshops, we implement the following safety measures:

- A full safety briefing is delivered at the start of every workshop and VR usage will be supervised by an adult at all times. A safety video is also shared with every class prior to our arrival.
- Pupils share one headset between two and only use VR for a maximum of 10 minutes during our workshops (this time is also split up into 1-2 minute segments). In between using a VR headset, we interact with pupils by asking questions, creating discussion and by setting mini activities based on what they've seen.
- All of our VR headsets are controlled by a central iPad which allows a member of the PrimeVR team to deliver specific educational content.
- We only use VR headsets to provide a visual experience and pupils will always remain seated whilst participating in one of our workshops.
- All headsets are cleaned using Clinell Universal wipes at the start and end of the day.
- Please note that an iPad or tablet will always be available as an alternative for any pupils who feel uncomfortable using a VR headset during the workshop.

We use Pico G2 4K VR headsets during our workshops. You can find out more information about Pico headsets by visiting <https://www.picoxr.com/>. We believe the additional measures we've put in place, alongside adult supervision, provides a safe environment for all pupils in KS2 and above to use VR for short periods of time for educational purposes only. If you have any further questions, please don't hesitate to contact us at info@primevr.co.uk or visit www.primevr.co.uk/faqs for more information. Please note, if you do not want your child to use a VR headset, please inform the school and we will be able to provide an iPad or tablet as an alternative device for accessing our workshops.
